

## HIGH QUALITY CONTENT

Studio produced content guarantees high quality video and audio. It also makes for a consistent student experience across our courses and professionalizes the online appearance of partner faculty and campuses.

## TECHNICAL EXPERTISE

You'll be working alongside media experts, allowing instructors to focus on the content of their courses without the additional responsibility of asset creation, management, and distribution.

## UNIQUE TOOLS

The studio provides access to advanced tools and aesthetics, including lightboards, teleprompters and multi-camera set-ups.

## RELATIONSHIP BUILDING

Working in the studio provides an opportunity for faculty, instructional designers, and media team members to meet in-person and work together in a collaborative and constructive environment.

## REAL-TIME FEEDBACK

Our media team strives to offer non-judgmental feedback to help instructors feel and look their best on camera.

## FLEXIBILITY IN POST

Studio-quality assets give our editors increased flexibility to make post-production adjustments to brightness, color, and audio.
