**3. In the box below, explain your use of AI in this assignment. Indicate specifically what work is yours and what part comes from AI. Why did you choose to use AI in this way for this assignment?**

Note: This activity is a tool for you in addition to your instructor. If you find your use of AI violates the parameters of allowed use in this course - for example, copying an AI response for an assignment (the final dark blue category above) – then you know you should redo the assignment.

**Submit this completed document along with your assignment to the dropbox in your Canvas course.**
